Project

| | |
|-------------|--|
| Field(s) | The main aim of the project will be creation of the "European civic committee for the systematic and comprehensive removal of barriers" following the framework of the above mentioned projects funded by the Slovak Presidency of the Council of the EU (see table Organisation, paragraph Short description and point 7) . |
| Description | The European citizens committee for the systematic and comprehensive removal of barriers will be the basis for 1/ systematic solutions/fixing minor bugs linked with implementation of the unified cross-border health care system for people with disabilities in local/national environment and 2/ elimination of barriers in individual EU member states . The basis for creation of such a committee has been formed in already existing projects (funded by the Slovak Presidency framework) and the committee main aim should be to create a right environment for successful international cooperation among its members. In the first phase we would like to focus on gathering best practices all over the Europe and based on them put forward a unified strategy for consideration by EU institutions. |

| | |
|-----------|---|
| Countries | <u>All countries in the EU with emphasis on following 20 EU member states:</u> <ul style="list-style-type: none"> • The Czech republic |
|-----------|---|

| | |
